

 $80 + 10 =$

A diagram of a two-story building. The top floor consists of two triangular roof sections. The left roof section contains the letter 'D' and the right roof section contains the letter 'U'. Below each roof section is a rectangular room. The left room is labeled 'D' and the right room is labeled 'U'.

A diagram showing two vertical rods, labeled 'D' and 'U', standing on a horizontal surface. The rods are positioned side-by-side, with 'D' on the left and 'U' on the right. The surface is represented by a thick horizontal line.
